

Aluminum Foil Pinhole Tester

LTZK-02

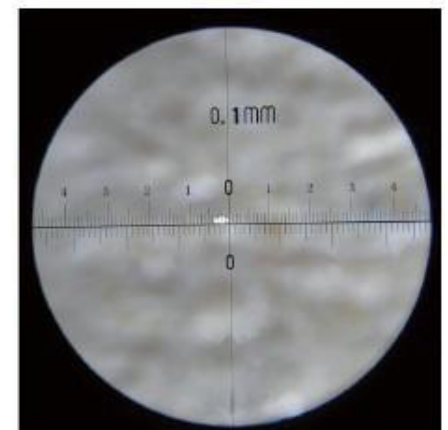

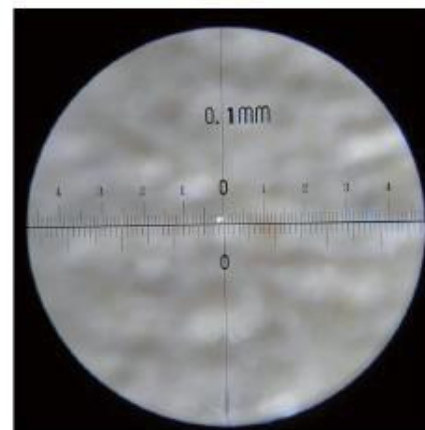

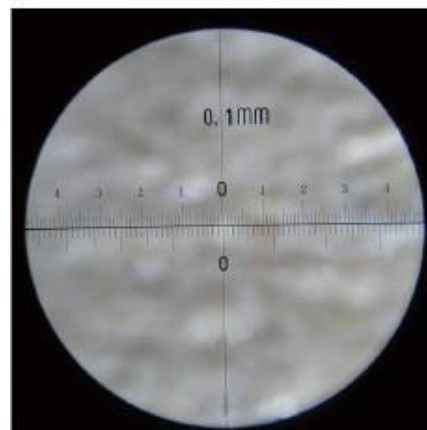

Specially designed for the test of the hole degree of aluminum foil

TESTING PRINCIPLE

Under specified circumstances and light boxes, use the transmission of light of the aluminum foil, to observe the number of pinhole, and measuring the size of the pinhole

magnifier

Φ 0.1-0.3mm pinhole number shall not exceed one

INSTRUMENT SPECIFICATIONS

technical parameters

Observe Size	400×250mm
application environment illumination	20Lux-50Lux
Light source power	30W
Enlarge scale value	0.1mm
Objective magnification	100X
Minimum measured value	0.01mm
Dimension	800×600×300mm
Net Weight	20Kg

Standard

GBT 3198-2010 GBT 22638.2-2008 YBB 00152002-2015

Configurations

Host ,microscope
